The 40 Watt High-Power LED of PHOS 45 outdoor is sufficiently cooled by a noise-optimized fan and provides extra power. The projector is suitable for year-round outdoor use or for damp interiors. The lens is equipped with a special gasket, which prevents the penetration of moisture. All encapsulated electronic components are waterproof. The projector is connected via a watertight connection tube. The recommended projection distance at dusk and night is up to 33 feet. PHOS 45 outdoor is especially suitable for outdoor projections on facades or portals, messages on pavements or areas in pedestrian zones – up to a diameter of about 13 feet. The projection motif (gobo) can be changed without tools.

Components

Standard series with high power LED and 85 mm standard lens. Required accessories: glass gobo with individually designed motif.
